Software Engineer

Sinelogix Technologies Pvt. Ltd | Apr 2023 - Sep 2023 | Vadodara

- Developed custom Magento modules tailored to specific client requirements, ensuring functionality and flexibility.
- Optimized complex database queries to significantly improve overall application performance.

Software Engineer

Webential Technologies Pvt. Ltd | Sep 2023 - Present | Ahmedabad

- Maintained and enhanced multiple projects, delivering consistent performance and reliability.
- Developed custom Magento modules tailored to specific client requirements, ensuring functionality and flexibility.
- Built a real-time chat application.
- Implemented a system to gather competitor pricing data.
- Developed a Laravel-based website with a custom WordPress plugin.

Key Projects

Laravel-WordPress Integration

Developed a Laravel-based website with a custom WordPress plugin. The system allows users to generate WordPress sites based on selected pages, manage them through the Laravel platform, and publish custom pages and sections, offering clients full flexibility and control over their content.

Skills Used: Laravel, WordPress, PHP, MySQL, API Integration, Plugin Development, HTML, CSS, JavaScript

Chat Application

Built a real-time chat application using Node.js, with AWS S3 Bucket integration for secure image storage, enhancing communication features for end-users.

Skills Used: Node.js, AWS S3, WebSocket, JavaScript, PHP, HTML, CSS

Competitor Data Retrieval

Implemented a system to gather competitor pricing data, enabling analysis of market trends and competitor strategies to inform pricing decisions.

Skills Used: Web Scraping, API Integration, Data Analysis, Python

PWA Implementation

Assisted in the integration of Progressive Web App (PWA) technology into a Magento 2 site using ScandiPWA, enhancing the website's performance, user experience, and mobile accessibility.

Skills Used: Magento 2, ScandiPWA, React, Node.js, GraphQL API, HTML, CSS

Admin Activity Logger Module

Developed a custom Magento 2 module that tracks and logs all admin actions (create, update, delete) for better oversight and auditing of backend operations.

Skills Used: Magento 2, MySQL, Module Development

Gift Card Integration

Integrated gift card functionality by leveraging Nomad Gift Card APIs, enabling seamless gift card transactions and redemptions within the platform.

Skills Used: API Integration, Magento 2, REST API

Education

Master of Computer Applications- Gyanodaya Institute of Management & Technology, Neemuch

Languages

- English (Conversational)
- Hindi (Fluent)
